_____

The update can be manually downloaded by clicking the "Latest Order Entry Update" link on the home page of www.cdawin.com.

The update program is contained inside of a "Zip" file. Once downloaded, the update program must be extracted from the "Zip" file before it can be executed. This can be accomplished as follows:

1. Close the Order Entry program if it is currently open.

2. Locate the file cdweupdt.zip and double-click on it.

3. In the top left, or top center, look for an option to "Extract all files" or just "Extract". Click on that option and follow the prompts to extract the file.

4. A window should display that has one file named "cwdeupdt.exe". Double click on that file and follow the prompts to install the update. (You may not see the filename extension ".exe", depending on your Windows operation system settings)

If you experience any difficulties, please contact us at 509-290-0310 for assistance.
